Hi Gary,

Couple of things:

- 1) Our folks are working on a schedule that we can give you regarding the VCP application schedule. I hope to have this to you this afternoon.
- 2) I wrote a work order to T&D two roll-offs that contain hazardous debris. We should have this activated in about a week.
- 3) Adrian Shelley, with Air Alliance Houston, called Nicole Bealle and asked for air sampling results. She told him that we didn't have any. Could you call him and talk to him? His phone number is 713-528-3779.

Thanks,

Terry
